

Rainfall Forecast Somalia

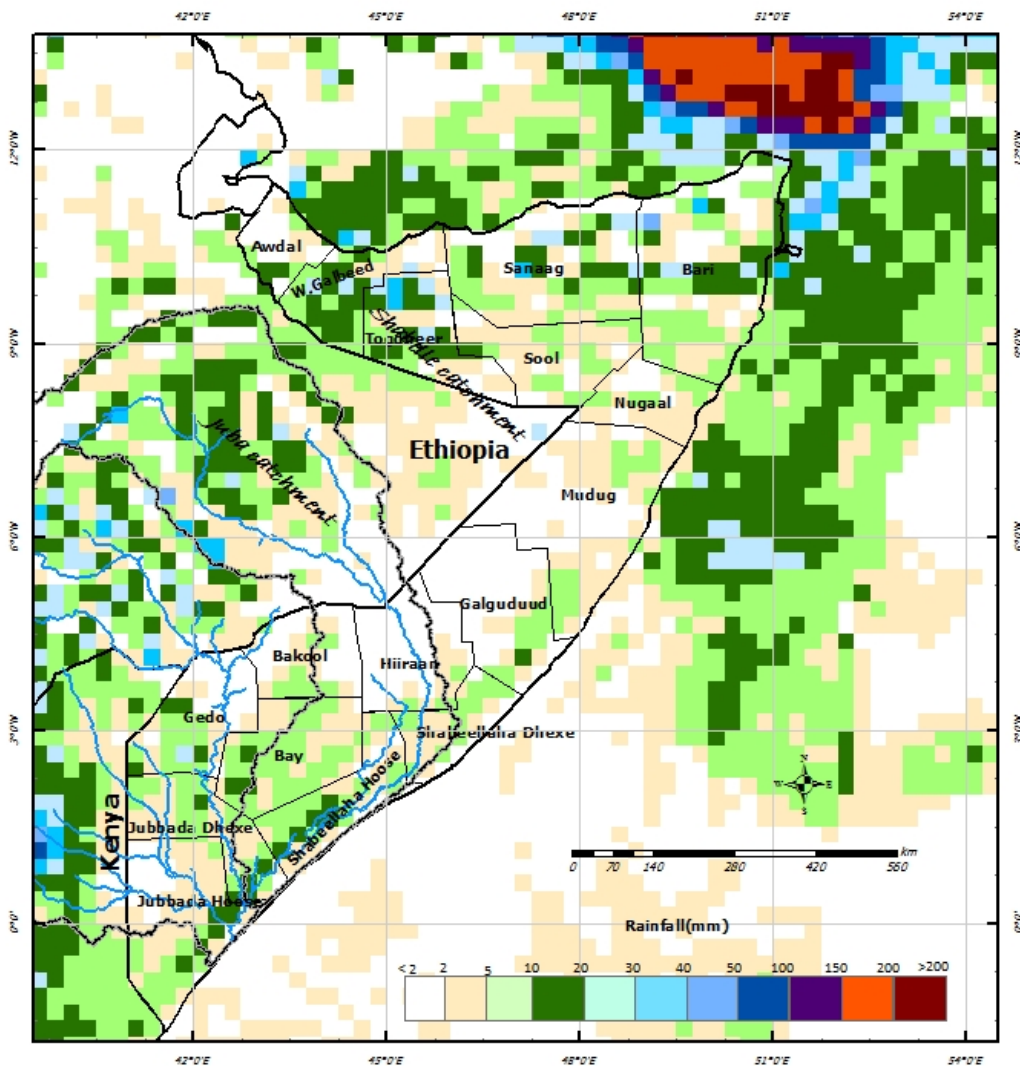

Issued: 02/11/2015

Saadaasha Roobka Soomaaliya

Soo Baxay: 02/11/2015

There will be a reduction of rainfall activities in most parts of Somalia in the coming three days. However, a tropical storm named CHAPALA is expected to make a land fall in Yemen. The passage of this tropical storm is expected to cause strong winds in parts of Bari and Sanaag regions which may also lead to heavy rains in the area during the forecast period. Areas to watch are Caluula, Qandala, Bossaso and Laasqoray.

3-day accumulated rainfall forecast (02/11/2015 to 04/11/2015)

Each cell on the map represents the forecasted accumulated rainfall over the next 3 days / *Xubin walba oo naqshadda koorkeeda ah waxay muujinaysaa guud ahaan saadaasha roobka ee saddexda maalmood ee soo socota*
