

Rainfall Forecast Somalia

Issued: 06/04/2016

Little or no rains are foreseen in Somalia for the next 24 hours. The upper parts of the Ethiopian highlands whose rains contribute significantly to the river flow in Somalia are expected to receive moderate to heavy rains within the same period.

24 hours total rainfall forecast valid on 06/04/2016

Each cell on the map represents the forecasted accumulated rainfall over the next 24 hours
