

# Rainfall Forecast Somalia

Issued: 16/12/2015

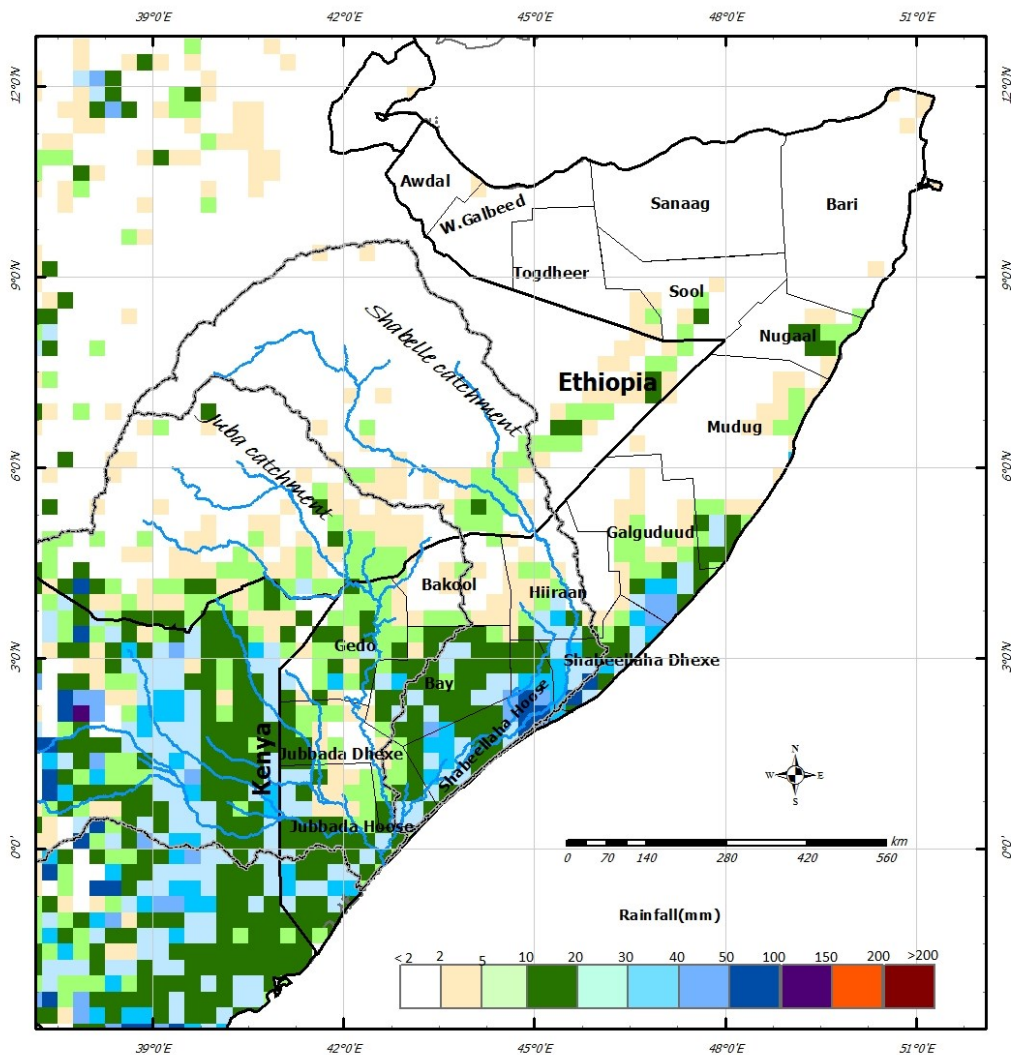

# Saadaasha Roobka Soomaaliya

Soo Baxay: 16/12/2015

Moderate to heavy rains are expected along the central and southern coastal areas of Somalia in the next three days. Other areas in the south will receive light to moderate rains in the same period; while most of the northern regions will remain dry. The upper catchments of Juba and Shabelle basins in Ethiopia are expected to receive minimal rains during the forecast period.

### 3-day accumulated rainfall forecast (16/12/2015 to 18/12/2015)

Each cell on the map represents the forecasted accumulated rainfall over the next 3 days / *Xubin walba oo naqshadda koorkeeda ah waxay muujinaysaa guud ahaan saadaasha roobka ee saddexda maalmood ee soo socota*
