

# Rainfall Forecast Somalia

**Issued: 20/04/2016**

The three days rainfall forecast is calling for a reduction of rainfall activities in many areas. Light rains may be experienced in western Somaliland and southern regions. The upper parts of the Ethiopian highlands are expected to get moderate rains. Dry conditions are expected in the other parts of the country.

## 3-day accumulated rainfall forecast (20/04/2016 to 22/04/2016)

Each cell on the map represents the forecasted accumulated rainfall over the next 72 hours
