

Rainfall Forecast

Somalia

Issued: 27/04/2016

Food and Agriculture Organization
of the United Nations

SWALIM

The last 24 hours continued to see an increase of rainfall amounts in many parts of the country with some stations in the north recording between 30mm to 50mm.

The three days forecast is calling for more rains across the country. However, there will be a reduction of rainfall amounts in Bari and Nugaal regions located in Puntland .Heavy rains are also expected in the Ethiopian highlands during the same period.

3-day accumulated rainfall forecast (27/04/2016 to 29/04/2016)

Each cell on the map represents the forecasted accumulated rainfall over the next 72 hours

The full forecast grid is available for download at http://www.cpc.ncep.noaa.gov/products/international/cpci/data/00/fcsts_eafrica.shtml
