

Rainfall Forecast Somalia

Issued: 28/10/2016

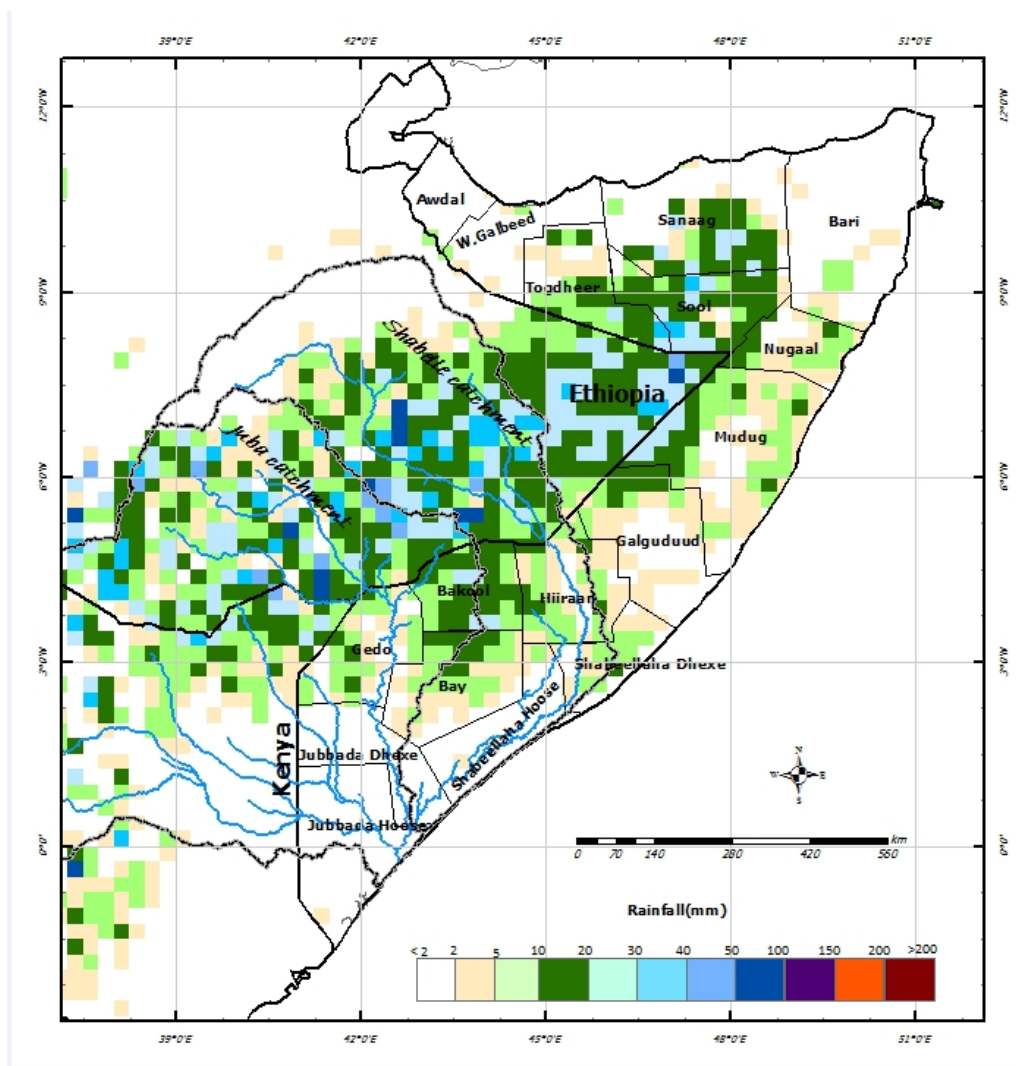

Saadaasha Roobka Soomaaliya

Soo Baxay: 28/10/2016

Light rains are expected to be experienced in parts of Sanaag and Togdheer regions in the northern parts of Somalia and a few places in the southern regions bordering Ethiopia. The Ethiopian highlands whose rainfall contribute significantly to the river flow of Juba and Shabelle Rivers inside Somalia are also expected to receive light to moderate rains within the forecast period.

The rest of the country will receive little or no rains in the same period.

3-day accumulated rainfall forecast (28/10/2016 to 30/10/2016)

Each cell on the map represents the forecasted accumulated rainfall over the next 3 days / *Xubin walba oo naqshadda koorkeeda ah waxay muujinaysaa guud ahaan saadaasha roobka ee saddexda maalmood ee soo socota*
